ANTI-CATHOLICS ARE ORGANIZING

The Ex-Priest Deciares His Intention to Remain in Savannah Until He Can Walk the Streets Without a Police Escort-A

SAVANNAH, March 1.—There has been another day and night of intense excitement in Savannab. Feeling seems to run high, though there were no hostilities yesterday. In the afternoon Mrs. Slattery lectured to 600 women in Odd Fellows hall. She and her husband were escorted to the hall by officers. Many of the ladies at the lecture were escorted to the hall by their husbands. Police were stationed in the square on which the hall fronts, and on the streets. No one was allowed to loiter about the building. Toward the close of the lecture crowds collected in the vicinity, and Slattery and his wife were followed to their hotel by hundreds.

Last night Odd Fellows' hall was crowded to its limit, and many were turned away. Fully a thousand men were in the hall, and it is understood that a large proportion were armed. On all sides men were heard saying that they were ready for a mob. Outside the hall the entire police force, with the exception of a few men scattered through the audience, were distributed so as to command the en-tire vicinity of the hall. The police kept continually on the move, and no crowd was allowed to congregate near the build-

Inside the hall there was a scene of enthusiasm. Slattery received an ovation, and throughout his lecture he was applauded and cheered when he declared that the riot Tuesday night had shown the nccessity of Protestant organization. The wild cheering lasted several minutes and was vigorously resumed when he said: "Get the A. P A. or the Junior Order of United American Mechanics, and you will have no more such demonstrations against free speech. We must meet the Ancient Order of Hibernians with the American Protective association, and show them that it is not necessary to get their permisslon to have a lecture in Savannah."

Slattery then declared that he was not here in the interest of the A. P. A., but that after the riot he had wired the national president and an organizer would be here in twenty four hours

This was received with more cheers. At the close of the lecture there were three cheers given for Slattery, and many went forward and signed a paper promising to unite with either of the orders he had mentioned. Slattery was escorted back to the hotel by a large body of police. Several hundred of those who had heard him followed to assist in protecting him. While there were many people on the streets to the hotel there was no demonstration made against the expriest except hisses.

Slattery announced last night that he intended to remain in Savannah until he could walk its streets without police protection. His presence here will keep up the excitement, which has been intensified by the announcement that the A. P A organization would be perfected at once Conservative men on both sides deplore the existing situation

Fifteen of the men said to have been prominent in the troubles of Tuesday night were arrested yesterday. Four of them were tried, of whom three were sent to jail for thirty days. Other arrests are to follow

Much Opposition to the Compulsory Ed-

HARRISBURG, March 1 .- The Fair compulsory education bill was under consideration on s-coud reading yesterday in the house, and provoked much discussion and opposition. Mr. Scylert, of Lancaster, whose bill was rejected by the education committee, made an ineffectual attempt to amoud it by substituting his proposi-tion, section by section. To say that the state of Virginia rejoines over the verties is expressing the matter mildly. The prosecuting attorney, Mr. W. Symour White, received in twenty minutes after the verdict was known the following telegram from Governor Charles T. O'Ferrall: "Congratula tions on your spl-ndid prosecution. Train robbers will seek some other state for their nefarious work. Virginia juries will uphold the law."

The jury was out only ten minutes. The judge asked Morgan if he had anything to say why sentence should not be pronounced. Half raising himself he said: "I was not ready for trial. I had no idea I would be tried at this term of the court. I was not physically or mentally in condi-tion to be tried, and did not want to be tried in this condition."

Messrs. Shay and Little, his counsel, at once moved for a new trial

## SENATORS CALL NAMES

Exciting Scenes at the Night Session of the Senate.

CHANDLER ARRAIGNS DEMOCRATS

And In Turn the New Hampshire Senator Is Vigorously Scored by Senators Hill and Martin-Described as a "Hyena" and

Washington, March 1,-The senate passed the sundry civil appropriation bill -sterday, including the item appropriatfag over \$5.993,933 for sugar bounties and the provision for a commission to represent the United States at an international monetary conference. The latter feature brought out a wide difference of opinion among the silver men of the senate as to the advisability of participating in an international conference. Mr. Stewart, of Nevada, sought to have the United States delegates instructed not to make any agreement short of a recognition of silver at the ratio of 16 to 1. This was opposed by Mr. Wolcott, who has always heretofore co-operated with Mr. Stewart on the silver question, and was defeated.

The senate chamber was the scene of an extraordinary demonstration at the night session, beginning with very sensational speeches and culminating with an exchange of personal epithets almost without paraffel in the history of the senate. Mr. Chandler personally arraigned many Democratic senators. Mr. Hill responded, characterizing, Mr. Chandler as a hyena for having dug up the private records of Senator Roach.

Mr. Martin, who had been arraigned by Mr. Chander, replied with intense bitterness, characterizing Mr. Chandler as a "buzzard," and declaring that it half was true that was charged against him he should be in the penitentiary instead of the United States senate. At times there was great confusion and excitement in the galleries, and the vice president threatened to clear the galleries. The mingled confusion, debate and excitement on the floor of the senate and in the galleries lasted

until after midnight.
At 12:25 this morning the legislative. executive and judicial appropriation bill was passed, and the senate then adjourned. The rush of the closing hours of con-

gress showed itself yesterday in the miscellaneous character of the business transacted. An attempt to pass a bill to pension Hiram Rhea, an alleged member of the Tenth regiment. South Carolina mounted infantry, over the veto of the president failed by 95 to 153, both the veto and the report of the scoretary of the interior showing that Rhea was alleged to have been at the time he was wounded a member of an armed band of Confederate guerrilas. The house by a vote of 115 to 150 decided to further insist on its disagreement to the senate amendment to the consular and diplomatic appropriation bill providing for the Hawaiian cable. The Williams-Settle contested election case.

#### FORTUNE IN HER OLD AGE

Widow of a Wealthy Chicagoan Discovered After Many Years.

CHICAGO, March I.-A discovery has been made by Attorney Braie, of Georgetown, D. C., which will affect large financial interests. Mr. Beale has discovered in Maryland the aced woman who was the first wife of the late John McCaffery, of this city, an eccentric millionaire. This means that one-third of the personal property of the estate will immediately pass to her, besides giving her a claim on the real esrate. The Maryland woman is now in the

The most extraordinary feature of this new phase of the McCaffery matter is that the discovery that the first wife of the dead millionaire is alive will cloud the title to fullions of dollars worth of Chicago property, most of it situated in that part of the city known as the town of Lake. After reaching prosperity in Chicago Mc-Caffery, in common with other rich men, made a practice of investing his surplus money in the purchase of tax titles. In every one of these deeds McCaffery signed his name as a batchelor or the deed was joined in by one or two women whom he is supposed to have married at different times in Chicago, and who were universally recognized by him in all his business transactions as his wives.

The discovery at the present time that the original Mrs. McCaffrey is not dead of course gives her the dower interest, not only in the present real estate belonging to the McCaffery estate, but in every foot of land that was sold by McCaffrey in Chl-cago and in all the titles which McCaffery gave in restoring property on which taxes had been paid by him after default by the real owners.

When John McCaffery died, a year or so ago, considerable astonishment was caused by the fact that in his will he admitted the existence of three separate, families of children. In this will be referred to five children by his first wife, to whom he was married in Maryland more than half s century ago. McCaffery's will provided that if necessary five years should be de voted to hunting up his descendants by his first wife. These children became separated from their mother at the time Me-Caffery left her and came west. All these years the mother has lived in ignorance of the wherenbouts of her children, but there is no question as to her identity.

ee, and his speeches in the house bave always been understood to voice the opinion of the administration. It was noted on Wednesday that Mr.

Wilson's speech upon the amendment to the postoffice appropriation bill to compel tailway mail clerks to live at the end of their routes—perhaps the last speech be will make as a congressman-was an earnest plea to congress to support the post-

master general. When Representative Wilson was told by a reporter of the Associatied Press that his nomination was sent to the senate he spoke freely of the fact that be had known for several days of the president's inten-

Being somewhat run down in health and wearied from his work in congress, Mr. Wilson will rest for some time, probably for a month, before assuming the iluties of his new office. Part of his vacation will be passed in West Virginia, and part of it in visiting friends elsewhere.

Senator Faulkner, of West Virginla, was presiding over the senate when the homination of Mr. Wilson was presented to the senate. Mr. Faulkner said the appointment was splended and could not be better. He was pleased to see West Virginia so recognized and so ably represented in the cabinet. Senators Voorhees. Vilas and Mitchell also spoke highly of the appointment.

Mr. Wilson remained in the committee room of the ways and means committee for some time after his nomination had been sent to the senate, and many members regardless of party found bim and offered their congratulations.

In vesterday's executive session the nom-Ination of Mr. Wilson was referred to the committee on postoffices and post roads and immediately reported back favorably, but no action was taken because the Sioux Falls postmastership stood at the head of the list, and senators interested in this case would not allow any action until this was disposed of. According to Professor Le Bon's views, a general Baropean war will be succeeded by tellible economic conditions. The crient is already commencing to be the producer for Europe instead of being the consumer, and Europe, in spite of its tariff protection will find it impossible to check to flood. India is now exporting its 1:0dnce, which, in some of transmitation expenses, is a ld of a lower figure than the Coropeau, and India, provided with machinery, is now competing with Europe in the manufacturing market. China, when its war with Japan is over, will follow India's example.

When India and China, with their enormous deposits of coal, have a mass of factories in operation, they will overwhelm the European markets with their products and place the European workman in the position where he must cither starve to death from lack of work or starve on absolutely insuffice at wages. The oriental workman will not, as experience has shown, desert their cheap food-tes and rice-tor our more expensive food or European luxuries.

Professor Le Bon's views, says Le Temps, may be drawn in dark colors, but every one familiar with political economy must to a certain extent indorse them. The European markets in certain of their branches are now and have for some time felt the killing infinence of economical competition from the oriental countries, and when such conditions exist now what will they be when these countries will be equipped with European machinery and producing its articles with the same facility as is now done in Europe? It may not come in our time, but a future generation will have a difficult problem to

#### TELEGRAPHIC TYPEWRITER.

Novel Method of News Distribution Followed In Paris.

L'Agence Havas, the great distributer of news at Paris, has introduced recently a system of telegraphic typewriters which for rapid spreading of information excels anything known. The machine was invented as well as perfected by an American, Mr. Wright, and, atter some adaptation necessary for the peculiar purpose it had to serve, presents now the perfection of an apparatus for the news bureau. A typewriter in the central station works the machine, and all the subscribers receive the identical information in less than one-third the time required by ordinary telegraphic transmission. Absolute accuracy is guaranteed, the operator sees what he is writing, and mutilation or dropping of words is impossible.

The system of news distribution is very complicated, but great pains have bers Drug store, and we will be been taken to secure it against any like- pleased to furnish you a bottle free ly interruption of the service. All the wiring is through underground cables, one cable being allowed for a group of 15 subscribers, but there are 20 wires in each cable, allowing a reserve of five wires for each circuit. The machine is quite different from the old American tickers, in that the paper used is not a strip three-quarters of an inch wide, but a roll of paper 612 inches in width. The principle is that of a typewriter, each key of which is connected with a special communicator, allowing an electric current to pass through the line, upon which are disposed a given number of receivers with typewriting attachments, but without any clockwork. A type reel guided by the current from the central station prints upon a roll of paper as in a typewriter. The commutator mentioned above is set going by a small electric motor receiving its energy from a battery of 60 Tudor accumulators .-Nature.

An Interesting Insurance Question. William Bailey, who had been buying horses and shipping them south, and who accidentally shot himself through the right foot two weeks ago, has died of his injuries. Bailey came here from Fort Scott. Shortly after the first of the year he took out two accident insurance policies, one in the Fidelity and Casualty company for \$5,000 and the other in the Standard company for a like amount. The latter company claims exemption under a clause which releases it if the insured is injured while in the act of violating a state law. Local representatives of the company claim that as Bailey was shot by the accidental discharge of a revolver in his pocket he was carrying a concealed weapon, and thereby violating the state law. -Atchison (Kan ) Disputch.

SOMETHING

Regarding things in general and clothes in particular.

The tendency in values is downward; with gold as a standard silver goes down, wages go down, merchandise goes down; and to require a man to pay the same for his clothes now as he paid ten years ago, is to resist the laws of business gravitation.

If you are now told that \$30 or \$35 is the necessary amount to get a first-class business suit, some one is deceiving you, for the materials which go to make the suit cost less, the labor-with the aid of labor saving devices—costs less, so that the suit should cost less, the question of how much less and retain the same value is important.

Let us say ten merchant tailors make five hundred suits: they have ten institutions to support, and must get profit enough to do it or go under. Now suppose one manufacturing tailor turns out alone about as many more, cannot be well afford to share the margin of profit with his customer, and then be better off? Ought not \$15 to \$25 furnish sufficient range of prices for first-class business suits. We think so.

Six months have elapsed since we asked the public to encourage us in a new undertaking. We said we would endeavor to manufacture custom made clothing, by the aid of first-class tailors, in a modern equipped factory. That we have been successful, beyond our expectations, everybody knows; and more than five hundred men in this city and surrounding towns are our witnesses that we have been able to supply them with clothing, correct in style and finish, at less cost than they have been in the habit of paying. Our patrons represent all classes, and we believe we have pleased the most of them.

In anticipation of adding many new names to the list of our customers, we have made extensive purchases of foreign and domestic woolens. They have been received and placed in our salesroom, and give it the appearance of a wholesale woolen house, the sight of which is interesting to behold. The fabrics embrace the finest English Worsted Diagonals, Thibits and Serges, the Globe Worsteds, Assabet Cassimeres and Cheviot Sawyer and other fine suitings and trouserings.

foreign wools and woolens.

We shall continue to make a good serviceable suit for \$12.50 and trousers from \$3 upward. We will be able, this season, to make a Clay Weave Diagonal Suit for \$15. This is due to a lower tariff on

Our spring fashion plates have arrived, and we are already taking orders on the new goods. If you contemplate getting new clothes this season, we would advise an early decision. In thirty days' time we shall be full of advance orders.

A bill for the transfer of New York city's insane to the care of the State was introduced in the Assembly, yesterday. It is understood that the bill was drafted by the State Charities' Aid Association. It provides for the lease of the city asylums on Ward's Island at an annual rental equivalent to three per cent. on \$2.-500,000 and for the lease of the Central Islip property at three per cent. on \$400,000

Interest in the three-cornered fight for the office of Excise Commissioner continues to increase, and sporting men find it difficult to get odds on either candidate. Mr. Cox, who it is claimed by one of the Republican papers, "represents the wishes of the open its doors, to-day. The Comp-Republican party" in this Republican city, and has the endorsement of the L'quor Dealers' Association, would seem to have the best end of the fight. Mr. Hill is hopeful, and Mr. Coddington says nothing except that he is in the field to stay, repor s to the contrary notwithstanding.

Certain parties who desire the elec tion of Mr. Cox as Excise Commissioner, are circulating a report that Mr. Coddi gton has withdrawn from the contest. There is not a word of has not withdrawn, and never thought of withdrawing On the con- the Senate to-lay. trary he is making an active canvass and is receiving assurances of support from all quarters. He will poll the votes of many Republicans who cannot bring themselves to support their party candidate, Mr. Cox, since his endorsement by the Liquor Dealers' Association.

Gov. Morton vetoed, yesterday, a bill appropriating \$40,000 for work on an armory for the Ogdensburg Separate Company. In his message he calls attention to the fact that bills appropriating \$1,062,000 for new armories and \$136,750 for repairs of armories are now before the Legislature. and does not hesitate to say that such appropriations are excessive and against the best interests of the National Guard. The Governor ex tends his criticism to the proposed appropriations for Normal School and State Hospital buildings, which aggregate \$2,337,000, and which, he says, are largely in excess of the just and proper necessities of the State's educational and charitable systems.

Bills appropriating twice the eslegislature and each day of the session sees new appropriation bills added to the long list. The State Treasury is also menaced by scores of bills creating new offices. Each legislator, who stands sponsor for a grab or place bill, insists on its passage and the situation is thought to be so critical and so full of danger to Republican supremacy in the State | that standard. that Governor Heetings has sent to the Legislature a special message warning it against appropriations in excess of the revenues and appealing to it to be careful. The old story, is repeating itself in Pennsylvania, -Rapublicans in supreme control, lavish appropriations and heavier burdens for the people to bear.

REVISING INSURANCE RATES.

Underwriters Adopt New Schedules in Newburgh-Very Considerable Reduc.

For a month past, the underwriters have been engaged in revising the insurance rates in Newburgh, and in many instances have made considerable reductions, and in some cases to a rate lower than before the increase made last year.

The few increases over the old rate of years ago and before the percentage advance was put on, will apply to the contents of mercantile buildings, dwelling houses, schools, churches and public buildings.

In nearly every instance it is understood that the special hazards comprising the manufacturing enterprises of the city are left as they have been during the past year. In some cases ricks of all kinds have been subject to slight increases, from the fact that that they are exposed by hazards that have not heretofore been taking taken into consideration. On the whole, the rates being considerably less than in other places in the upper part of the State, timated revenues of the State have it is thought that general satisfacbeen introduced in the Pennsylvania | tion will be given. Persons with poor risks from a schedule point of view will have to pay a little increase for the deficiences. In every instance, however, where such increases take place, a decrease can be made by making improvements to the property. In the main the underwriter's schedule has beeen applied to different kinds of property and the rates have been made in accordance with

A PORT JERVIS MAN MISSING-

Shortage of \$2,500 in His Accounts as Town Collector. The family, creditors and bondsmen of Jesse T Luckey, a druggist

in Port Jervie, and the tax collector of the town of Deerpark, are very anxious as to his whereabouts.

Luckey left home on Toursday of last week, telling his wife he was gcing to New York to buy goods and would raturn home the next day. He has not been seen since, although his father made a two days' search for him in New York.

An examination of his accounts as collector shows a deficiency of about \$2,500 of money collected and not turned over to the Treasurer.

Luckey's drug store is valued at \$4,000 He was indebted to Dr. Wickham, of Port Jervie, in \$2,000 for money loaned and his father, Sidnay Luckey, holds a judgment of \$1 567 To secure himself Dr. Wickham swore out an attachment, and, yesterday, Sheriff Beakes took possession of the store. The judgment of Mr. Sidney Luckey was also placed in the Speriff's hands. A lien of \$168 has been filed by a New York drug firm.

The Union says a young man in that village had hinted that he would reveal something in regard to the missing man after Thursday, and it gine. was then remembered that the same young man had introduced Luckey to an agent of the Swift Refrigerator Co., who had invited Luckey to make a trip with him to England. The agent was to sail, yesterday, and young Luckey's father went to New York to induce bim to remain at nome, if it should prove that he had arranged to make the trip to England.

Many of Mr. Luckey's friends in Port Jervis refuse to believe that he bas any intention of absconding and wil be surprised if he does not return and straighten up his affairs.

The result of Mr. Sidney Luckey's visit to New York, yesteriay, was only to learn that the missing man had not sailed for England with the agent of Swift & Co. He carefully inspected the passenger lists of all outgoing steamers and was satisfied that young Luckey was not among them, even under an assumed name, and his whereabouts is as much of a mystery as ever.

Mrs. Ayers induced her husband to give her \$10, on the plea that she was homesick and wanted to visit her relatives at Unionville. Young Kemp secured about the same amount from a farmer for whom he worked and left on the same train with Mrs. Ayers, since which time they have not been heard from.

WHY RAILROAD MEN LAUGH-

Engineer Hopper tredited With the Als Drug Store Seized by the Sheriff-A Accomplishment of a Remarkable When the Erle switch engine left the rails on the saw shop switch, two

or three days ago, another paper stated that it "threw a tire," and Engineer Hopper made the necessary repairs in a few minutes.

This little item has caused much amusement to railroad men, and especially to Road Foreman of Engineers Joseph Johnson, for more reasons than one.

In the first place Engineer Hopper did not replace the tire, and probably never saw such a thing done before that day; and again it was the first time such a thing was ever done outside of the shops on the Eastern division, a d it was Joe Johnson's ingenuity that suggested the idea of doing it on the spot and carried it Luckey. out successfully.

To replace the tire which had slipped partially off, it was necessary to heat the tire to expand it without heating the wheel.

This he did with the assistance of Car Inspector Skinner, by improvising a charcoal furnace and making a pipe connection with the air drum of the engine, after disconnecting the driving rods and jacking up the en-

The feat was successfully accomplished after several hours of hard work, and the company was saved the expense of sending the engine to the shops.

THE BIRTHDAY PART (

An Unique and Very Pleasing Entertainment at the First Presbyterian

The birthday party at the First Presbyterian Caurch, last evening, was a very pleasing entertainment and a decided novelty in Midale.own. It was planned by Mrs. A. H. Nanny, and carried out under her direction, ably assisted by Mrs. C. C.

The church was handsomely decorated by Firnhaber, the expense of the same being a contribution from Mrs. Luckey.

The attendance was very large and everybody was delighted. The object of the entertainment was to raise funds, in which respect it was a decided success, over \$158 being realızed.

Little slik bags had previously been distributed among members of the congregation, that each person receiving one might place in it one cent for each birthday; hence the the title, "birthday party." These little bags were taken up at the door and were found to contain \$125 33, showing the combined ages of the contributors to be 12,533 years.

The entertainment consisted of a representation of Jean Ingelow's poem, "Songs of the Seven," each period of seven years being represented by a girl or lady, with a musical number between each of the

#### "WHY SO SAD, WILLIE?"

A London Police Court Incident That Made fiven Lidy Somerset Laugh. All London is languing now over a bit of testim a v that was given in the hearings on Lady II any Somerset's crusade against the London music halfs. Not to be belief dear own Dr. Parkhurst when he began his cru-ade, Lady Henry Somerset decembed to take the ball by the hores and collect evidence herself. The trip was made, and when the detective party was placed upon the stand during the hearing the justice asked her ladyship if in her travels about in the slums she had been molested or accosted in any officisive way. Lady Henry was compelled to reply that she had not, but that, on the contrary, she had rather respectful treatment. Her companion gave similar testimony.

When the little curate took the stand, the judge asked the same question of him-if he had been accosted.

"Yes," replied the little man in a shrill voice, "and very offensively too."
"Well," said the judge, "what did

the women say to you?"
"Well, sir," the curate declared, with comical indignation, "in one of the music halls a couple of women came up to me, and one of them brazenly chucked me under the chin and said, Why so sad, Willie?" "

#### BACTERIOLOGY.

This Bacillus Business Has Spread So as to Make Us All a Little Nerve 18.

Of Campbell's lives of the lord chancellors, in the succession of which there was a possibility that he might himself appear, Lord Brougham said that it had added a new terror to death. Life has been so stuffed with new terrors by the bacteriologist that there is hardly room for another, and beside him the most prolix and prosaic historian and biographer becomes an innocent and harmless figure indeed. There is hardly any physiological or moral condition which is not now fitted with its bacillus, the proportion and structure of that microscopic reptile being given with diabolical accuracy and verisimilitude. It would really be a relief not to know quite so much of the minute organizations which accompany morbid pathological states if there were any way of escaping it. The doctors have to know, of course, but the knowledge might be confined to them, as the sacerdotal mysteries used to be to the priesthood. It would save no end of popular anxiety and alarm. With every symp is assailed by a new and virulent micrococcus, and the constantly published researches of the microscopists tend to iuflame his imagination and increase his alarm.

Here is an Italian bacteriologist who says be has discovered the bacullus of old age, and when he has found out the right sort of salt to put on its tail its ravages will be at an end, and old age, as a condition, will pass away, subsisting only as a theory or remote retrospect. He has not yet disclosed the structural outlines of this curious reptilian debutante, and it may be only an after dinner vision, to which science will deny a recognized place, leaving old age, as it was before, an incurable condition, with an invariably progressive tendency, in no need of bacteria to accelerate it .- New York Tribune.

Some of the boys would eat two dozen frozen oranges at a sitting, or standing. rather, and the feat did not seem to harm them in the slightest. Some of the bootblacks and newsboys made a point of buying 5 cents' worth of frozen oranges every day for their dinner. They could get a dozen large ones for a nickel, and they would cat them way down to the yellow hide. A white boy who attempted the same performance would have had several different kinds of cramp colic in less than 15 minutes. -Florida Times-Union.

A FLORIST'S FAKE.

The Story of the "Blanket of Flowers" on Mr. Astor's Grave an Invention.

Many women have visited Trinity complety the Hundred and Fifty-fifth street and Amsterdam avenue, in the past lew days to see the marvelous "blan", con covers" which was said to "cover the asket" of Mrs. William Wardorf Asion, and which was to be "ren wederery morning for a year" by Mr. Asta s order. Mrs. Astor was burje con Jan 9, not in a vault, but in a grave, in the posthwestern corner of the Aster plot. On the day of the funeral the mound of carth was covered with pine bough. The evergreens have not been removed, and except at one corner, which has be a uncovered by inquisitivo visitors, the grass is covered with snow. The laborer- in the come tery have swent a path through the bunkil plot, and about the grave a path has been trodden by their and wranch.

The cens terp employees have grown very tired of having their word doubted by women who inquire the way to the Astor vault and the blanket or flowers on the coffin. No flowers at all have been placed on the grave, and they can see for themselves that none can be pur on the casket. So the women insist that the corin is not in the grave, but in the vault of John Jacob Astor, and they ask to have the vault opened, so that they can see this wonderful covering. Although the man explains to them how impossible and useless it would be to comply with their requests, they des part unsatished and doubting his word.

The old gatekeeper, who has been employed about the cometery 22 years, has to bear the brunt of their inquiries and disappointments. He said that the other evening, just as he was closing the gates, two women begged for admittance, saying that they had come all the way from East New York to see the flowers and would not go home unsatisfied. Some come from other states, and two came from what seemed to him the antipodes-Staten Island.

All this annoyance and disappointment is due to Joseph Fleischman, a florist, of Droadway. On the morning of the funeral he told the reporters that he had the contract to supply fresh flowers every day for a year for the grave. For this he was to receive \$100 a day, he said, and in all he would receive \$40,000 from Mr. Astor. On the day after the funeral Mr. Fleischman sent to the newspaper offices a typewritten story of the alleged contract given to him by Mr. Astor. He was, he said, to furnish 4.000 fresh lilies of the valley and 4,000 violets each day. He repeated the statement yesterday to a reporter of The Sun, and then, being confronted with the facts, admitted that he had invented the whole story.

Superintendent Otto Meurer of the cemetery and his brother Albert, who is sexton of Trinity church chapel and had charge of the funeral, say that no such order for flowers was given by Mr. Astor to anybody.—New York Sun.

#### THE ANTITOXINE DISCUSSION.

Professor Drasche's Criticism Unfavorable to the New Diphtheria Remedy.

The physicians of two or three European capitals are beginning to find serious drawbacks to the use of the new remedy for diphtheria. The subject was carefully discussed at the Medical socioty in Vienna this week. Professor Drasche's criticism was unfavorable to the new method, owing to the effects which he had observed in 30 cases. He found that injections of Behring's antitoxine serum affected the kidneys seriously. This observation was corroborated by other doctors. They said that in the presence of this fact it could no longer be believed that the injection had no injurious effects It could not be a matter of indifference that a patient who was recovering from a dangerous illness should be subjected, through this remedy, to a further serious malady.

Up to the present time, for observations have been much too short to permit a final decision as to the value of the treatment, it is clear that its application should be limited. With regard to the statistics which were supposed to prove its success Professor Drasche said that in diphtheria, bare figures were no evidence. - London Letter.

#### A Debutante's Remark.

That the debutantes of the season of 1894-5 do not rely upon their appearance alone for success in the social swim, but have a fancy for conversational distinction, is evidenced by the following remarks, overheard at one of the introductory "teas:" "Miss Rosebud, I want you to know Mr. Legal Lore and be very nice to him, for he is one of the lights of the Washington bar and a very brilliant speaker," said one of the old beaus, presenting at the moment a well known young lawyer.

"Why is it," chirped Miss Rosebud, in answer, "that all bright particular 'stars' have to go about with a tag on them, calling attention to their bright ness?" Needless to say the conversation languished. - Washington Post.

A Quertion Making Much Noise. A discussion is raging in Erie over a question propounded by a schoolteacher to her class, "If a tree located in a for-est should fall and no one should see it, would it make a noise?" The question has created much discussion among the pupils to whom it was presented, and it has spread into older and wider circles. The debate turns upon the theory that sound exists only in the ear, and that there can be no sound where there is no ear to receive and respond to the atmospheric waves, -- Oil City Blizzard.

It was Napoleon's appetite that ultimately accomplished his ruin, just as it has many another man's. Aunt and Uncle Chesterfield came to visit us that fall. They lived at Jay Corners and really ought never to have gone anywhere else. but there they were, getting out of the stage at our front gave, and v. mat could

I heard father say that to mother as they wood looking out of the window together Uncle Chesterfield wasn't really our uncle, you understand, but just an old friend of father's-I don't know how old, but he looked every day of it and more. We called him uncle because be apneared that way

Aunt Chestrifold had tic douloureux, which used to conso her to make up the awfullest face. I realize now that it was from pain, but at that age I used to laugh, whereupon she said I was a wicked boy. She also had a brown wig and rheumatism. Uncle Che-terfield didn't have anything but just warts-I think I counted 70-and Aunt Che-t-rheld But I heard father tell mother that that was enough.

Mother put them into the spare chamber, where the old fashiened canvas bottom ted was with the white valance. There were also some green worsted lamp mats on the bureau. We all said good night, father wound up the clock and everybody went to bed

I always was a sound sleeper as a boy, so you must know that Aunt Chesterfield had to shrick pretty loud to get me out, but she did it and could have fetched me, I think, if I had been dead. I got right up and ran into the spare chamber before anybody could stop me.

Aunt Chesterfield was sitting in the middle of the bed in a red fiannel nightgown. I didn't know her at first, because her mouth was wide open, shrieking, and her face twisted with the douloureux, and the whitest, shintest head you ever saw, which I remembered with copious locks of

But I saw how that was in a minute, for there was Napoleon over in the corner with a brown wig in his mouth, which he was tos-ing and worrying and carrying on

dreadfully.
Uncle Chest-rfield you couldn't see at first, but by and by you found him with his less stuck through the rounds of a rocking chair, and every time he moved Napoleen would growl, not being acquainted with Uncle Chesterfield, and he

was scared almost to death They took the stage back to Jay Corners the very next day. Mother was dreadfully shocked, but I noticed father didn't get

excited. "I wonder who let that dog up stairs." he said musingly after the stage was gone. Intended to say that I didn't know, but I got to stammering and mixed myself up, and before I realized what I was doing I blurted the truth right out and said that I did. Father gave me a quarter I didn't know what for, but I supposed at the time that it was for telling the truth.

"But the dog must go,' he added. "His appetite is growing too indiscriminate ' So we seld Jum to a man who kept a farm, and who soon afterward shot him for biting a calf on the lcg Napoleon used to do that to book canvassers when he was with us, and nobody found any fault with him, but on a farm it is different. -W. C. Fuller, Jr., in Rockland (Me) Tribune.

#### His Experience.

Scene-Country village. School board election The Rev. Mr Blank, beaming and genial, seeking re-election, meets Sandy, an old worthy who has a vote. "Good morning, Sandy!" gripping Sandy's brawny hand and shaking it significantly. "Thope you are well?" "Oh, aye, thank ye, sir, I'm a' right the noo!"
"This is the election day, ye ken," suggested the minister deferentially. "Aye, I ken that weel," said Sandy. "Are you going to plump for me again this time?" 'Na, 'deed! the experience of others! This is what wise people do every day in the year in small matters, why not then in that most important factor of happiness-Health?

MISS MAUD E. COOPER, of 125 W. 46th St., NEW YORK CITY was thus a gainer: the trials of others showed her how she might be saved. Her system was completely shattered, the effects of a fall while horseback riding. The care of physicians, a year in Florida all made no change, and there apparently could be but one termination to her sufferings. She says: "I was attracted by the notices I saw of

MONTICELLO'S SOLLIERS' MONUMENT FELD

The Incorporated Association Unwilling to Let supervisors Adjust Biffer.

During the annual session of the Board of Supervisors of Sullivan county, in November, the Ladies' Sull van County Soldiers' Monument Association, (anincorporated) addressed ac minumication to the Supervisors, asking them to meditate, intervene, arbitrate and adjust the differences existing between the unincorporated and incorporated monument associations, to the end that the money collected might be used for the rurpose intended and a Sullivan ounty's sons who gave money. their lives to their country, The Supervisors named Mosers, Simpson, Daibeo and Dusinbery as a committee to try and harmonize the differences between the rival associations, but although three months have elapsed the Supervisors have accomplished nothing and white robed Peace dosen't seem to be hovering over Monticello any more than she has been since the second monument association come into being.

The proposition of the unincorporated association seems to have been an eminently fair one and that nothing has been accomplished must be due to the refusal of the incorporated association to meet the Supervisors' committee in a fair, open and womanly way. The petty jealousies and personal piques that were behind the organization of the Incorporated association are evidently still in existence and will probably continue to ed upon his tenant accounting to prevent the erection of a monument and to make Monticelle the laughing had earned by working by the day stock of all who see anything funny for his neighbors This beats in a village divided against itself.

The employer docked him for the time he was up in the air. The owner of a farm not many miles from Monticello let it to a very worthy and very industrious mants work on shares, the owner and the tenant each to have half of what was produced. Bad Roads-The Home News-A Pleasant Surprise Party

Correspondence Argus and MERCURY. -Our roads are in a terrible condition, with very little signs of getting better, and all who can, stay

-We have a very newsy little paper printed here called the Home News. It is edited by Mr. Warner, the genial Erie agent.

-About eighty of the friends of Mr. and Mrs. Robert Teple, of near this place, gave them a surprise, Wednesday evening. The house, though large, was pretty well filled. After a splendid repast furnished by the ladies of the party, dancing began to the sweet strains of music by Niver's band. Those who did not care to dance enjoyed themselves fully as well in games of various kinds. The party broke up at 3 o'clock; it would seem like a late hour, but the young people of Pine Bush know how to hold onto a good thing when they get it. We hope Mr. and Mrs. Teple may live to receive many more such visits from their friends.

The audience manifested deep interest and expressed satisfaction by applauding liberally.
